

'Make a Difference Day' Collaborative Community Project – 2006

ENVIRONMENTAL COMMUNITY PROJECT TEAM 'Make a Difference Day' 28/10/06

A team of 18 Nursing and Social Work first year student volunteers took part in a collaborative 'clean up' event as part of the National 'CSV Make a Difference Day'. Activities were based around the Pyke Drain, and consisted of the removal of general rubbish, cans, bottles and three supermarket trolleys! The team were kitted out with safety equipment and suitable protective clothing and were able to free up the jammed sluice to enable the water to flow again. Teams of between two and five volunteers worked all day under the supervision of Moorland Centre Community Project Team Leader Stuart Goodacre. Diane Slapp at Lincoln Voluntary Centre helped to organise the day. Volunteer Sarah Squires said, *"The University team adopted the name Students Making a Difference. It was a great day and I really enjoyed it"*.
